

# **Manual Shipping Plugin for Hikashop by Brainforge.UK**

## **7.0 Product Installation Option**

This requires the following product custom field to be defined:

- `product_installation`

The value of this custom field must match one of the allowed *Price Type* option values.

## **7.1 Price Type Option**

This option is available if either of the following product custom fields is defined:

- `product_installation`
- `product_delivery`

The value of these custom fields must match one of the allowed *Price Type* option values.

Note that a shipping price of £0 is not the same as *free* shipping. A shipping method with price of *free* can only be used if all products in the order have a *product\_delivery* field value also of *free*.

## 7.2 Product Installation Feature

The product installation feature can be enabled in the extensions Plug-ins administrator page.

This intended to be used in a number of ways such as:

- Add value (if any) of custom product\_installation custom product field to the shipping cost for each product ordered.
- Use to request a quote or process on a pre-arranged maintenance visit. May require additional order processing, outside of Hikashop. See the Brainforge Quotation Hikashop Payment plug-in.

Shipping Method	product_installation Custom Field
<div><div>Price</div><div><input type="text" value="0.00000"/></div><div><input type="text" value="£ GBP"/></div></div> <div><div>Percentage</div><div><input type="text" value="0"/> %</div></div> <div><div>Product tax category</div><div><input type="text" value="None"/></div></div> <div><div>Use price per product</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div> <div><div>Override shipping address</div><div><input type="text" value="No"/></div></div> <div><div>Override tax zone</div><div><input type="text" value=""/></div></div>	<div><div>Save &amp; Close</div><div>Save</div><div>Cancel</div><div>Help</div></div> <div><div>System</div><div>Products</div><div>Customers</div><div>Orders</div><div>Display</div><div>Documentation</div></div> <div><div>Label</div><div>Product installation</div></div> <div><div>Table</div><div>product</div></div> <div><div>Column name</div><div>product_installation</div></div> <div><div>Field type</div><div>Text</div></div> <div><div>Required</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div> <div><div>Custom Error Message</div><div></div></div> <div><div>Default value</div><div></div></div> <div><div>Regular expression check</div><div></div></div> <div><div>Attributes</div><div></div></div> <div><div>Placeholder</div><div></div></div> <div><div>Input filtering</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div> <div><div>Maximum length</div><div>0</div></div> <div><div>Published</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div> <div><div>Display limited to</div><div>all</div></div> <div><div>Display</div><div><div>Front-end</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div><div><div>Back-end Form</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div><div><div>Back-end Listing</div><div><input type="radio"/> Yes <input checked="" type="radio"/> No</div></div></div> <div><div>Categories</div><div></div></div> <div><div>Including sub categories</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div> <div><div>Products</div><div></div></div> <div><div>Access level</div><div><input type="radio"/> None <input checked="" type="radio"/> All <input type="radio"/> Custom</div></div>
<div><div>Specific configuration</div><div><div>Includes installation</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div><div><div>Installation price type</div><div><input type="text" value="Product Installation Price"/></div></div><div><div>Include categories</div><div><input type="text" value=""/></div></div><div><div>Include subcategories</div><div><input checked="" type="radio"/> Yes <input type="radio"/> No</div></div></div>	<p>When configuring a product a numeric value must be entered for product_installation.</p> <p>In this example the installation price is not shown to the customer on the product page – but this can be displayed using the <i>Front-end</i> option.</p> <p>This feature is not available with the free Hikashop Starter edition.</p> <p>If required <a href="#">click here to purchase Hikashop</a>.</p>

The value of the product\_installation field will be added to the normal shipping method price (i.e. to the price shown when installation feature not available).

## **7.3 Product Installation Shipping Price Calculation**

Example 1 – Normal shipping method without installation:

Normal shipping price calculation applies.

Shipping Method Includes Installation	No
Product Installation Field	Empty

Example 2 – Shipping method not available:

Shipping Method Includes Installation	No
Product Installation Field	0

Example 3 – Shipping method not available:

Shipping Method Includes Installation	No
Product Installation Field	10

Example 4 – Shipping method not available:

Shipping Method Includes Installation	Yes
Product Installation Field	Empty

Example 5 – Shipping method with free installation:

Normal shipping price calculation applies.

Shipping Method Includes Installation	Yes
Product Installation Field	0

Example 6 – Shipping method with additional installation charge:

Installation charge (for each product) added to normal shipping price.

Shipping Method Includes Installation	Yes
Product Installation Field	10

An order may contain a mix of products from examples 4 and 5.

## **7.4 Product Installation Shipping – Variant Handling**

Variant Product Installation Field          Empty

Shipping price calculated as in above examples using the value of the Product Installation Field of the parent product.

Variant Product Installation Field          Not Empty (0 or any other value)

Shipping price calculated as in above examples using the value of the Variant Product Installation Field. Value of the parent Product Installation Field ignored.
